Description

The DHL-HL-LED™ is an innovative interior high bay lighting luminaire that delivers top-end performance packaged into a sleek form factor. These fixtures offer the unique feature of adjustable wattage, allowing users to tailor the light output to their specific needs while maintaining optimal energy efficiency. With their high lumen output, they provide abundant and evenly distributed illumination, making them suitable for high-ceiling environments where brightness and coverage are essential. This adaptability not only enhances lighting quality but also contributes to cost savings and sustainability efforts, making wattage selectable linear high lumen high bays a smart choice for demanding lighting requirements.

Features

- High lumen output - bright and high lumen per watt.
- Integrated LED - maintenance free.
- Replaces HID and fluorescent fixtures.
- Wide beam angle - uniform light distribution.
- All steel surfaces are painted after fabrication for smooth edges and rounded corners.
