

LINEAR SERIES

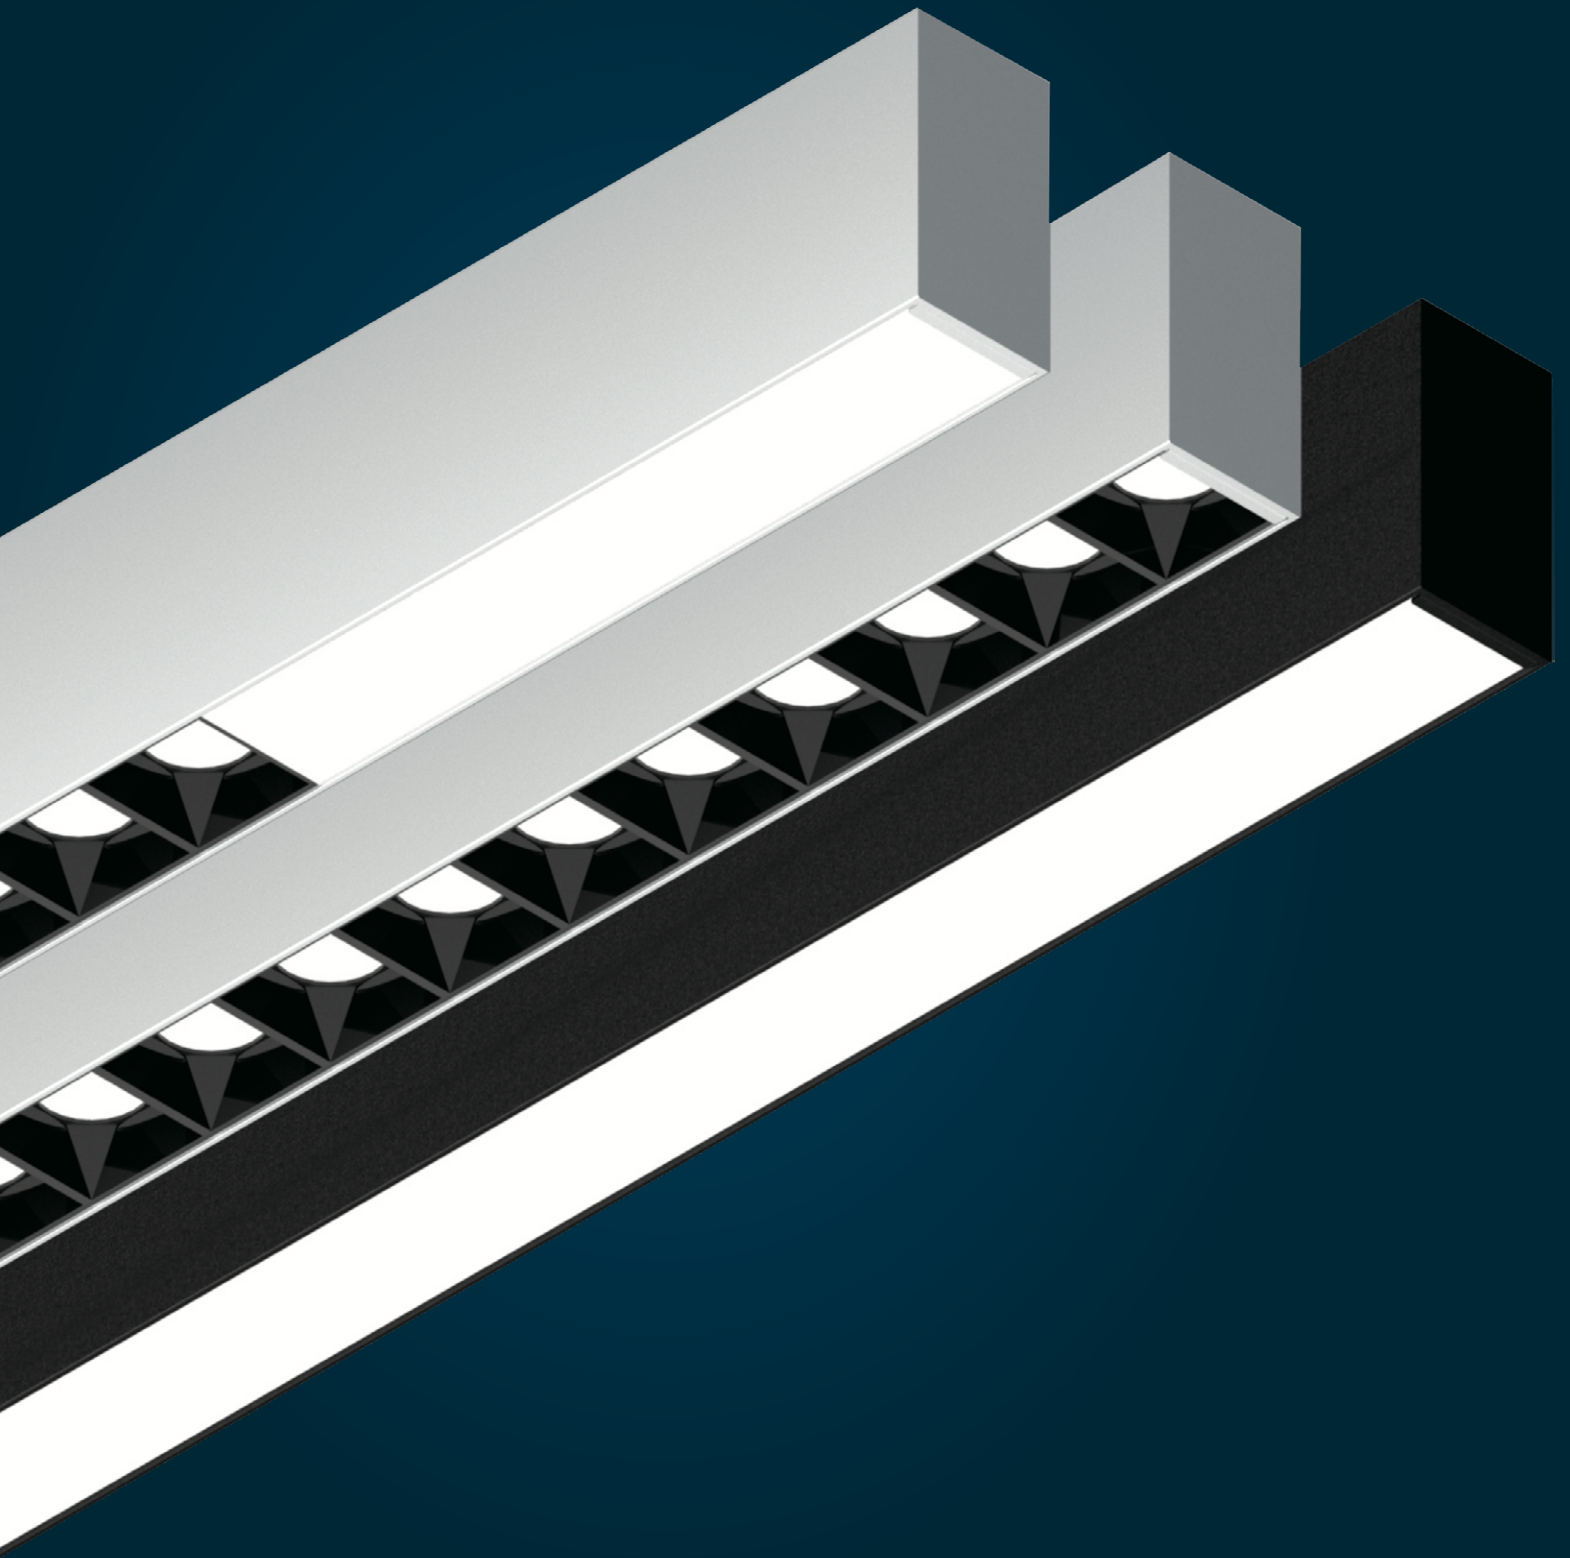

M2O
MADE TO ORDER

LINEAR FORM. PRECISION LIGHT.

M2O® Custom Architectural Solutions is a curated collection of distinctive lighting. Each series offers multiple ordering options, allowing designers and specifiers to configure key elements such as lengths, finish, output, and mounting to best suit their project. The collection enables lighting to be tailored to the specific needs of a space while maintaining the quality and performance standards of our fixtures.

CUSTOM ARCHITECTURAL

LINEAR

SERIES

Designed to adapt to the demands of modern architecture, this linear fixture combines sleek styling with exceptional performance. Available in lengths from 2 ft to 13 ft, it supports both direct/indirect and direct-only distributions, making it ideal for a broad range of applications.

Three profiles and multiple lens options provide the flexibility to achieve the desired balance of illumination, comfort, and visual appeal. Standard finishes include black, white, and silver, with custom finishes available to support unique design visions.

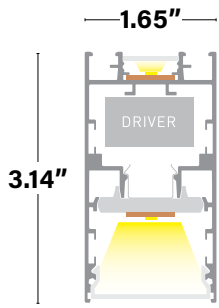

From corporate offices and educational facilities to hospitality and public spaces, this versatile family delivers a refined lighting experience with a clean, modern aesthetic.
