PREMIUM QUALITY LIGHTING®
M20 ARCHITECTURAL

AUTO DEALERSHIP

DLWNTLH, HGH BAY & TRCK LITNG

We offer a comprehensive range of interior lighting solutions tailored for dealership showrooms and other commercial environments. From high-efficiency downlights and high bays to designer track and accent lighting, our products are engineered to highlight vehicles at their best, emphasize design details, and enhance the overall customer experience. Our architectural fixtures provide bright, balanced illumination that creates a welcoming atmosphere, allowing customers to appreciate every feature while giving the showroom a sleek, professional appearance.

Designer Track Lighting

PENDANT

We offer a wide variety of architectural pendant fixtures that do more than just illuminate, they elevate the overall design of any space. Suspended gracefully from the ceiling, these modern lights add depth and sophistication, drawing attention to key display areas while enhancing the dealership's contemporary aesthetic. The combination of innovative design and superior illumination creates a showroom environment that feels inviting, refined, and perfectly aligned with the premium experience customers expect.

PANEL & TROFFER

Our panel and troffer lights combine exceptional illumination with a sleek, modern aesthetic. Designed to integrate seamlessly into grid tile ceilings, they offer a clean, streamlined appearance that elevates any space. In addition to their energy-efficient performance, these fixtures help reduce operational costs while maintaining outstanding lighting quality. They are ideal for conference rooms, sales offices, and other environments where high-performance functionality is essential.

Avior®

ROUND & LINEAR HIGH BAYS

Our High Bays and LED Ready Fixtures deliver exceptional efficiency and performance. Consuming significantly less energy than traditional lighting, they help lower operating costs while promoting environmental sustainability. Designed for versatility and durability, these fixtures are ideal for service shops, repair areas and stairwells providing reliable, long-lasting illumination in even the most demanding environments.

EXTERIOR

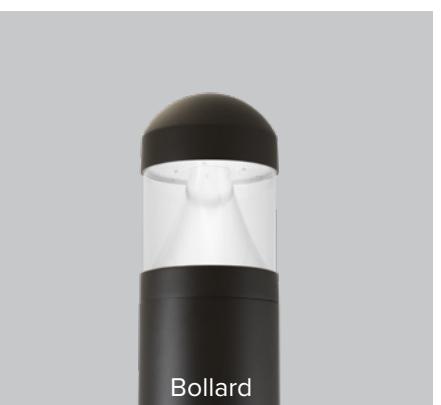

We offer a comprehensive range of exterior lighting solutions specifically designed for automotive dealerships or any commercial area. From area lights to post tops and bollards, we provide complete coverage for all your outdoor lighting needs. Our products are engineered to deliver bright, uniform illumination that enhances visibility for both customers and staff, creating a safe and welcoming environment day or night. This superior lighting not only highlights vehicle displays and enhances curb appeal, but also ensures safety and consistency across the entire lot.
