

## GU-24 Screw Shell Adaptor

Provides New Alternatives for High-Efficacy Lighting  
in Residential and Commercial Applications

Screw shell adaptor is available in a  
single configuration: Cat. No. 26745

### Single, Universal Configuration Helps Manufacturers Comply With Key Energy Efficiency Standards

Leviton's new GU-24 screw shell adaptor enables you to convert any medium Edison base fixture to accept energy efficient GU-24 base lamps. The GU-24 screw shell adaptor can be used to adapt existing screwshell based incandescent luminaires to accept self-ballasted compact fluorescent lamps and other high efficacy and/or ENERGY STAR compliant light sources (such as LED's) that utilize the GU24 base configuration.

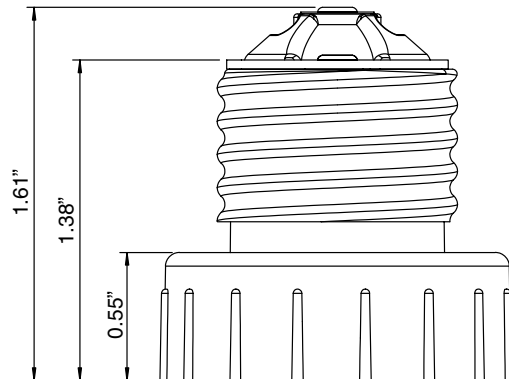

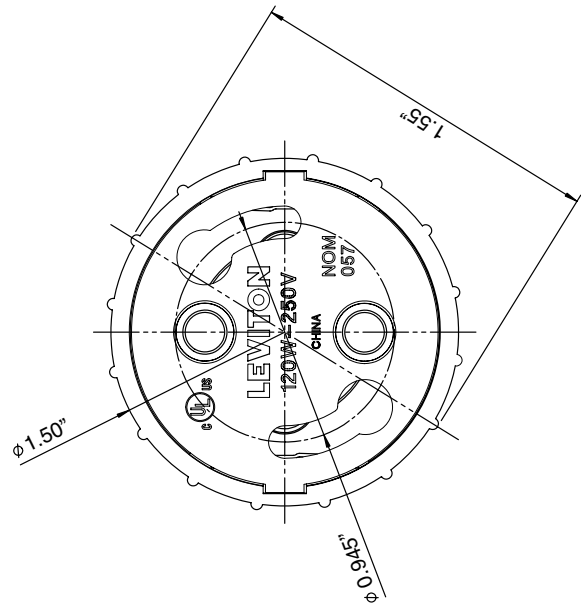

*Note: ENERGY STAR is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy. It helps consumers save money and protect the environment through energy efficient products and practices.*

### Great Flexibility Allows Assembly And Cost Savings

The Leviton GU-24 fluorescent series allows manufacturers to expand their lines of screwshell-base incandescent luminaires to include compact fluorescent and LED versions without costly retooling or modification. They are ideal for a wide range of product applications including residential and commercial lighting fixtures, portable luminaires and decorative wall sconces.

Available with copper screwshell for damp-location applications upon request.
