

## LED EXTERIOR LIGHTING

# WILDLIFE-FRIENDLY

Superior Life® Wildlife-Friendly fixtures minimize light pollution that can disrupt coastal wildlife by providing long wavelength light (AMBER). With no bulbs to replace they are virtually maintenance free, save energy and have a long life (50,000 hrs) significantly reducing operational costs over the life of the fixture, quickly paying for itself.

**Application:** Ideal for commercial and industrial applications; gas stations, underpasses, storage areas, covered walkways, and security lighting.
