

PREMIUM PET LAMPS

ENJOY YOUR PET

Solar-Brite™ Exotic Pet UVB plus heat lamps are useful in preventing and treating Metabolic Bone Disease that can occur with reptiles in captivity. The combination of UVB plus heat stimulates appetite, increases the brilliance of the reptile's natural color and assists in inducing breeding when included in a light cycle regimen. Solar-Brite™ lamps are economical, they provide both proper light and heat from a single unit and have a useful life of 10,000 hrs.

Day-Brite™ color enhancing exotic pet bulbs are coated with rare earth neodymium to enhance the colors of reptiles. These Full-Spectrum bulbs provide purified light that simulates the natural photo environment of a reptile's habitat. The heat radiating from these lamps simulates the sun, allowing them to bask in its warmth. Day-Brite™ also provides physiological well-being to your pets.
