

CERAMIC HEAT EMITTER
150W

FEATURES

- Provides steady, infrared heat without visible light, suitable for 24 hour use.
- Supports natural thermoregulation and healthy activity patterns in reptiles.
- Helps maintain consistent basking spots and ambient temperature gradients.
- Long-lasting ceramic construction designed for durability and high heat output.

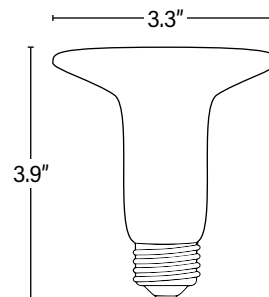

APPLICATION

Ceramic heat emitter provides consistent radiant heat to support reptile thermoregulation and overall health without visible light. It helps maintain stable basking areas and proper thermal gradients for a wide range of terrarium setups.
