

20,000 HOUR 120V SUPER LIFE™

Super Life™ 20,000 Hour/120V incandescents are engineered to last up to 20 times longer, therefore reducing business operational and maintenance costs, effectively saving both time and money. Perfect for hard-to-reach areas. Equipped with rugged filaments designed to burn brighter and longer without loss of lumens.

- **LAST 20 TIMES LONGER**
than standard lamps, reducing labor and lamp costs
- **MORE CONSISTENT LIGHT LEVELS**
throughout the life of the lamp
- **5 SUPPORT FILAMENT**
to resist shock and vibration in any mounting position
- **SINGLE PURE TUNGSTEN COIL**
for extended life
- **REFLECTOR DISC**
directs more light out the top of the lamp and absorbs heat away from the filament and base

- **BRASS BASE**
resistant to corrosion and freezing in the socket

REFLECTOR LAMPS:

- **SILVER REFLECTOR**
boosts effective brightness
- **PRECISE FILAMENT ALIGNMENT**
for tight optical control
- **PRECISELY ENGINEERED FOCAL POINT**
for extra light punch

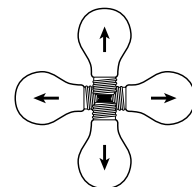

LAMP COMPARISON

SUPER LIFE™ LAMP

- 5 Filament Supports
- Single Coil Pure Tungsten Filament
- Reflector Disc Absorbs Heat and Directs Light Outward
- Brass Base
- 20,000 Hour Life

SUPER LIFE™ FILAMENT
5 Filament Supports
Designed for Longer Life in Any Mounting Position

SUPER LIFE™ BURNING POSITIONS
Can burn in any position, unlimited installation

VS.

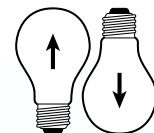

VS.

STANDARD LAMP

- No Filament Supports
- Coiled-Coil Filament
- No Reflector Disc
- Aluminum Baset
- 1000 Hour Life

STANDARD FILAMENT
No Filament Supports,
Designed for Vertical Mounting Only

STANDARD LAMP BURNING POSITION
Limited to vertical installation
