

LOW-PROFILE UNDER COUNTER LED LIGHT - UCL1

INSTALL INSTRUCTIONS

PLEASE USE A QUALIFIED ELECTRICIAN FOR INSTALLATION. Read the instructions before installing or use of the luminaire.

WARNING, CAUTIONS AND OPERATING INSTRUCTIONS

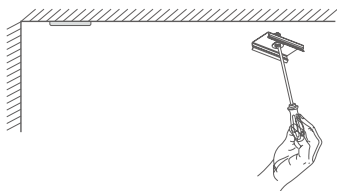

- Read carefully before installing fixture. Retain for future reference.
- Upon receipt the fixture, thoroughly inspect for any freight damage which should be brought to the attention of the delivery carrier. Compare the catalog description listed on the package slip with the fixture label on the housing to assure you have received the correct material.
- Please do not modify, or dismantle, or replace any accessories on the luminaire.
- To prevent electrical shock, turn off electricity at breaker panel before proceeding. Always disconnect the power before installing or performing any maintenance on the lamp. Do not touch the power supply while the lamp is in operation.
- These instructions do not cover all product details or possible configurations.
- Route and secure cords so that they will not be pinched or damaged.
- Ambient operating temperature range: -4°F thru 104°F
- Suitable for damp locations, IP20.

INSTALLATION

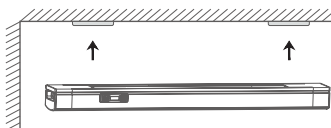

WARNING DISCONNECT POWER BEFORE INSTALLING OR SERVICING.

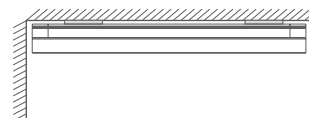

MOUNTING CLIPS

1. Select a position and install mounting clips with appropriate screws, keeping them level and evenly spaced, with sufficient distance.

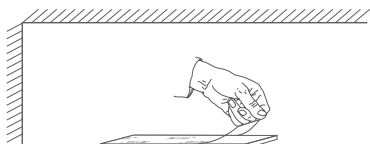

2. Push the under counter light into clips, making sure it's snapped in securely.

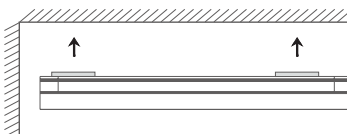

3. Attach power cord, installation complete.

DOUBLE SIDED ADHESIVE TAPE (UCL1-TAPE, ordered separately)

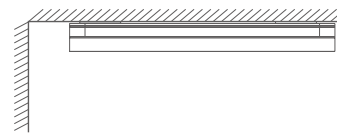

For best results, ensure the surface is clean and dry before applying the tape. May not stick well to very cold or porous surfaces.

1. Remove one side of the adhesive tape a place on the back of the fixture, with sufficient distance.

2. Remove the other side and push to secure the fixture into place.

3. Attach power cord, installation complete.
